

# CYBERSECURITY TIPS FOR EMPLOYEES

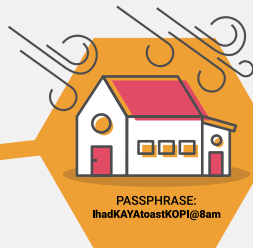

YOU ARE THE FIRST LINE OF DEFENCE FOR YOUR ORGANISATION

## 1: PROTECT YOURSELF FROM PHISHING\*

- Cyber attackers usually use a convincing scenario as a "bait"
- Stay vigilant and never click on suspicious links in unsolicited messages

\*Phishing is a method used by cyber criminals to trick you into acting on their instructions.

PASSPHRASE:  
lhadKAYAtcastKOPI@8am

## 2: SET STRONG PASSPHRASES AND PROTECT THEM

- Use passphrases – a sequence of random words – instead of passwords
- Ensure your passphrase is at least 12 characters long with uppercase, lowercase, numbers, and/or special characters of security

## 3: PROTECT YOUR CORPORATE AND/OR PERSONAL DEVICES (USED FOR WORK)

- Protect your device from loss/theft
- Update your software and antivirus
- Use secured networks

## 4: REPORT CYBER INCIDENTS (INCLUDING SUSPECTED CASES)

- No matter how small the issue seems, report cyber incidents promptly to mitigate potential risks

## 5: HANDLE AND DISCLOSE BUSINESS-CRITICAL DATA CAREFULLY

- Protect business-critical data
- Report any suspected incident of unauthorised disclosure of data

## 6: WORK ON-SITE AND TELECOMMUTE IN A SECURE MANNER

- Adhere to clear desk and clear screen policy
- Use VPN and teleconferencing software that supports encryption
